CONSTRUCTION PROJECT MANAGEMENT

Phases of Construction Project

1. Pre-Construction Phase
2. Construction Phase
3. Post Construction Phase

Obviously, construction projects without an effective Project Manager can end up having trouble!

- Projects not completed and left abandoned
- Projects completed beyond target date
- Projects completed beyond budget
- Projects completed with poor quality
- Projects having too many revisions
- Projects ended in arbitration case or in court
- Project Team broken relationship after the project
- Projects completed on time, good quality and within cost, but not able to realize and emulate good tools, techniques and practices, lessons learned and new technology available

The subject matter is steered to make the attendees:

- Understand what is Construction Project Management, how and why it is a must.
- Gain knowledge on use of construction management tools to manage various phases of construction
- Develop skills and attitude in controlling quality, time, cost, and scope in construction project
- Enhance the character in handling construction issues

"If we always do what we've always done, we will get what we've always got."

— Adam Urbanski
